

PSi TECHNOLOGIES TO EXHIBIT IN SEMICON CHINA 2003 IN SHANGHAI, CHINA

MANILA, PHILIPPINES and STA. CLARA, CALIFORNIA, March 5, 2003 - PSi Technologies (NASDAQ:PSIT), a leading independent provider of power semiconductor assembly and test services, is scheduled to exhibit in the SEMICON China 2003 Trade Exhibit on March 12 to 14, at the Shanghai New International Expo Center (SNIEC), in Shanghai China.

SEMICON China 2003 is organized by the Semiconductor Equipment and Materials International (www.semi.org) organization, a trade association representing more than 2,500 companies serving the global semiconductor equipment, materials and flat panel display industries.

PSi's participation in SEMICON China 2003 allows the company to present and discuss the latest power semiconductor package designs and services to new and existing customers. It is a demonstration of the Company's commitment to be "The global leader in power semiconductor manufacturing, most admired for its partnerships, people and performance."

PSi Technologies' booth is located at Hall Two (2) Booth number 2664.

About PSi Technologies

PSi Technologies is a focused independent semiconductor assembly and test service provider to the power semiconductor market. The Company provides comprehensive package design, assembly and test services for power semiconductors used in telecommunications and networking systems, computers and computer peripherals, consumer electronics, electronic office equipment, automotive systems and industrial products. Their customers include most of the major power semiconductor manufacturers in the world such as Fairchild Semiconductor, Infineon Technologies, ON Semiconductor, Philips Semiconductor, and ST Microelectronics.
